## V. Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

### 1. STATEMENT

Novelty (N)	Claims <u>1-0146</u>	YES
	Claims <u>NONE</u>	NO
Inventive Step (IS)	Claims <u>1-146</u>	YES
	Claims <u>NONE</u>	NO
Industrial Applicability (IA)	Claims <u>1-146</u>	YES
	Claims <u>NONE</u>	NO

### 2. CITATIONS AND EXPLANATIONS

Claims 1-146 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest introducing a mixture of gases to establish a liquid/gas interface and thereby reducing the concentration of dissolved non sucrose substances in order to purify juice. In determining the scope of the prior art to which the instant claims are to be compared, PCT rule 33.2 requires that the claims be considered in view of the specification such that the necessary and essential function or use forms the basis of consideration. In that light, the instant claims clearly exclude the prior art process such as liming and carbonation and the apparatus associated therewith.

Claims 1-146 meet the criteria set out in PCT Article 33(4), and thus exhibit industrial applicability because the subject matter claimed can be made or used in industry.
